

C-27 I Trainee Admissions, Support, and Outcome Data

(Commission on Accreditation; April 2016, revised July 2018, February 2019, February 2021)

Standard V.A. of the Standards of Accreditation for Internship Programs requires that programs provide potential and current trainees and the public with accurate information on the program and on program expectations. This information is meant to describe the program accurately and completely, using the most up-to-date data about important admissions, support, and outcome variables, and must be presented in a manner that allows applicants to make informed decisions about entering the program.

The CoA requires each accredited program to provide information in its public materials regarding program admissions expectations, program support provided to interns, and initial post-training placement in a standardized way. This information is required to be posted in the program's public material(s) (e.g., website, brochure), and must be updated annually. This information will be reviewed by the CoA as part of periodic program review.

Presentation of Required Information

To ensure that the required information for each program is available to the public in a consistent fashion, programs are required to update information annually, no later than September 1.

- The information must all be located in a single place and be titled "Internship Admissions, Support, and Initial Placement Data";
- If the program has a website, the information must be located no more than one click away from the main/home program landing page (e.g., within the program's online brochure) and the link must be titled "Internship Admissions, Support, and Initial Placement Data";
- If the program has more than one source of public materials (e.g., website and brochure), the information must be included in the primary recruiting document used to educate potential applicants about the program. For instance, if a brief brochure is provided and then applicants are directed to a website, then the information would be located on the website. Alternatively, if a program has a website "introductory page" and then applicants are instructed to download an extensive brochure, the information can be contained in the brochure;
- Table cells must not be left blank; instead, if not applicable, please enter "NA" (if a text response is required) or "0" (if a number value is required);
- The data must be presented in tables consistent with those listed at the end of this regulation. Programs may choose to provide other data to supplement the requirements of this regulation, but these tables must be provided. If the program chooses to provide supplemental information, it should be provided below the corresponding required tables;
- While consortium programs are expected to pool resources and thus provide equivalent financial and other benefit support across sites, the CoA recognizes that there are instances in which this is not possible. In those instances, consortium sites must replicate the table titled "Financial and Other Benefit Support for Upcoming Training Year" for each site as necessary to ensure accurate representation of support available.

Program Disclosures

As articulated in Standard I.B.2, programs may have “admission and employment policies that directly relate to affiliation or purpose” that may be faith-based or secular in nature. However, such policies and practices must be disclosed to the public. Therefore, programs are asked to respond to the following question.

<p>Does the program or institution require students, trainees, and/or staff (faculty) to comply with specific policies or practices related to the institution’s affiliation or purpose? Such policies or practices may include, but are not limited to, admissions, hiring, retention policies, and/or requirements for completion that express mission and values.</p>	<p align="center"><u> X </u> Yes <u> </u> No</p>
<p>If yes, provide website link (or content from brochure) where this specific information is presented: https://www.aumhc.org/wp-content/uploads/2021/09/2022-2023-Psychology-Internship-Brochure.-FINAL.pdf</p>
